

# COMMERCIAL APPLICATIONS

**G**oat Turf is the perfect choice for design and installation of commercial landscapes. Our industry-best synthetic grass is the wise choice for businesses and contractors looking to beautify an existing space while saving on water, utilities, and maintenance costs.

Businesses typically see a quick ROI (Return on Investment) after the installation of SYNlawn synthetic grass. Because our products are built to withstand extreme use from both foot traffic and the weather, it's not unusual to see our artificial turf at an outdoor amphitheater, a sports complex, or even inside your favorite shopping mall.

## OUR MISSION

*Our core belief is that every space, every day, has the potential to improve your quality of life. In short, our mission is to help our customers do more of what they want to do, when they want to do it, in the spaces that they love the most.*
