

COMMON AREAS: BALCONIES

A balcony can be a meeting place, hold a garden, or be used for dining and entertaining. So why are they almost always concrete? Because of the limited space, artificial turf for a balcony is an affordable option for creating an attractive, durable, highly functional space. Now, you can open your doors and bring the outside in, creating a seamless transition between your home and nature.

Goat Turf designs beautiful spaces for balconies and other outdoor common areas, like rooftops and decks. Our team can be relied upon for apartment communities, hotels, and more.

OUR MISSION

Our core belief is that every space, every day, has the potential to improve your quality of life. In short, our mission is to help our customers do more of what they want to do, when they want to do it, in the spaces that they love the most.
