

POOL SURROUNDS

What everyone truly desires around their pool is more usable, functional space, and nothing achieves this better than bright green, durable, low maintenance artificial grass. It complements or provides a longer lasting alternative to wood or composite decking and concrete deck tiles – and with far less maintenance.

Artificial grass around pool areas transforms your pool into a beautiful, functional space that enhances your quality of life, and is not only eco-friendly, but also reduces the risk of slips and falls.

OUR MISSION

Our core belief is that every space, every day, has the potential to improve your quality of life. In short, our mission is to help our customers do more of what they want to do, when they want to do it, in the spaces that they love the most.
