

PLAYGROUND SAFETY EXPERTS

Because **Goat Turf** understands that nothing is more important than the safety of your children, we have completed the **National Recreation and Park Association** certification program in playground safety. This unique designation is instrumental for helping us recommend and install the industry's best playground surfaces, structures, and equipment.

We are proud to be your single source solution for residential and commercial playground systems, offering surfaces that provide consistent safety standards in high traffic areas, in any weather, at any height, and under all types of play equipment.
